New development on The New Golden Mile with modern apartments and penthouses

Lagumare brings a fresh new chapter to The New Golden Mile. Just minutes from Estepona and with quick access to Marbella and Puerto Banús, this stylish new development offers beautifully designed apartments in a calm, well-connected location.

Comprising six elegant three-storey buildings, Lagumare presents a range of homes to suit your lifestyle. Ground floor residences come with private gardens and the option for a pool, while top-floor penthouses offer expansive solariums and terraces up to 108m²—ideal for outdoor dining and relaxing under the Costa del Sol sun.

Design meets function in every detail. Expect generous interiors with clean lines, floor-to-ceiling windows, and a minimalist Mediterranean aesthetic in pure white. Every apartment includes a private parking space, and the community itself is gated and secure.

Residents can unwind in thoughtfully planned communal areas: swim in the outdoor pool, take a moment in the lush gardens, practice yoga, or work out in the open-air gym. Everything is designed to elevate everyday living and provide a peaceful escape—yet close to golf, restaurants, and beaches.

Lagumare is not just about location—it's about lifestyle, convenience, and timeless architecture on the New Golden Mile.
